

BACK PACK'N EUROPE

VOL. 1

2022

Dominic Micheli

INTROD

Welcome to BACK PACK'N EUROPE 2022 Vol. 1, with this travel guide itinerary you will be able to document your travels, spending and other notable bits, while also having a full out planned itinerary.

This was all planned and designed by [Me] Dominic Micheli.

Of course anybody that wants to replicate this trip may do so.

We have a number of friends that will be joining us on this trip, this will help to cut costs of accomodation which is the highest expense within this trip while also having the best company ever.

This document was created by pure passion for travel, adventure and experiences.

A big thank you to Discovery EU for provding 7 Days of Free rail travel within one month with any european+ rail company

This ticket would usually cost 258 EUR which we have managed to save as we did win these tickets.

Which means more delicious cuisine for me!

UCTION

The route chosen contains a lot of destinations which you can see in more depth on the next page, these destinations are a mixture of "Dream Destinations" and "It's so cheap, we can't miss it". This route has taken a good few months to plan and perfect, while also reducing the cost.

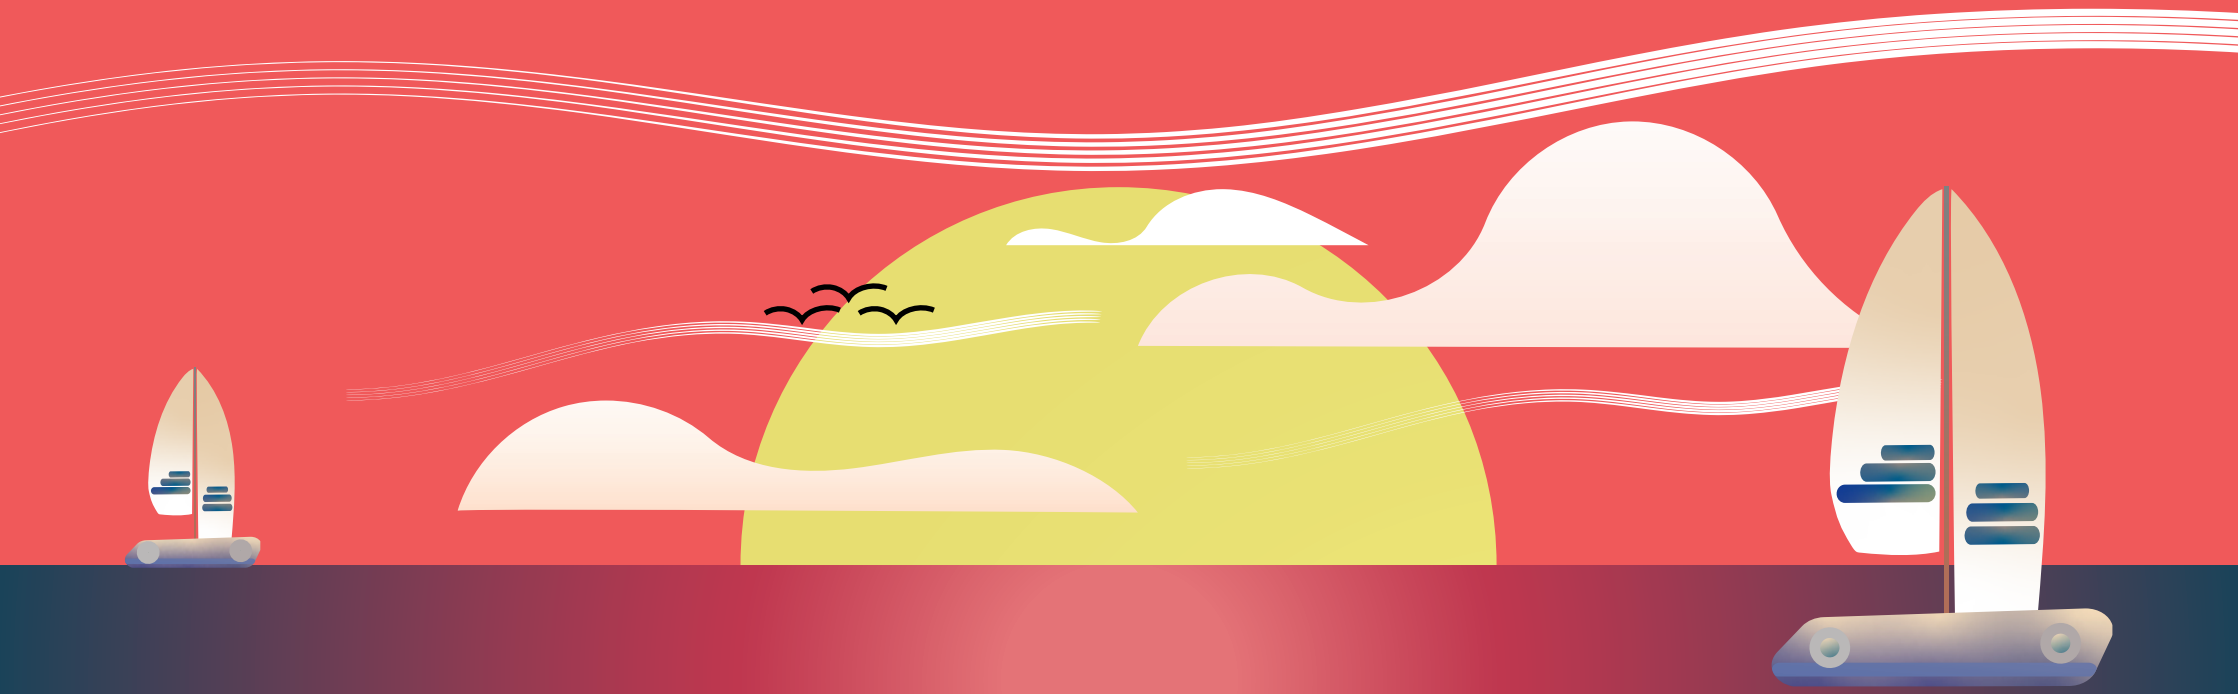

The journey takes us on a 41 day adventure throughout Europe and Turkey. The main method of travel is Train and Bus. We will only be using Aeroplanes 4 times within this trip.

I wanted to make sure that this trip emmits the lowest carbon possible without affecting the experience of the trip.

I hope this docuemnt is used to it's fullest, a lot of hard work, time and effort has gone into it.

So here is a note to my future self and who ever is following this trip,

You are living your dream of travel, enjoy every moment and be confident in your decisions, plus... you've got this!
